

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: **Paul A. Kohl, et al.**
Application No.: 10/590,264
Filed: August 18, 2006
For: MICROSTRUCTURE AND METHODS OF FABRICATION THEREOF

STATEMENT OF ASSIGNEE GRANTING CONSENT TO FILE A DECLARATION
PURSUANT TO 35 U.S.C. § 371 (c) (4) NAMING AN INVENTIVE ENTITY DIFFERENT
FROM THE INVENTIVE ENTITY SET FORTH IN THE INTERNATIONAL STAGE

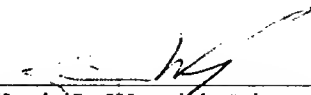

Georgia Tech Research Corporation doing business at the Georgia Institute of Technology, of 505 10th Street, Atlanta, Georgia 30332-0415 (hereafter "GTRC") hereby gives consent, as designated assignee of the patent property of the above referenced application, to remove Justin L. Tullis as an inventor.

GTRC states that documentary evidence of a chain of title from the original owner to the assignee was submitted and is recorded in the assignment records of the Office on reel/frame 020326/0491.

Furthermore, any inventorship error occurring in the international application (PCT/US05/05088) from which this application claims priority was without any deceptive intention by GTRC.

The undersigned is authorized to act and sign on all patent related matters on behalf of GTRC.

Respectfully submitted,
Georgia Tech Research Corporation
